

Attached is the notification for the next classroom driver education session. You do not register with us. You register on the Wayne County Public School Website, generally 2 – 3 weeks before the start of class:

www.waynecountyschools.org

Services

Student Resources

Driver Education

A+ Driving School

The link to register is listed under the class notification.

All students must register. Every student who signs up will get into the class. If you can't attend all 5 classes, please DO NOT SIGN UP. Once the class is closed, you will receive an email confirming your registration in the class.

Reasons students/parents do not receive an Email.

1. Wrong email address was given.
2. The email went to spam or trash...the email sending the information out will be: earluzzell@wcps.org

If students register for the DRED class and they do not show up, it will disadvantage other students who were not able to sign up due to the class reaching capacity and closing registration early.

If a student **does not register**, they may report to the location on the first day of class. If there is room in the class, they will allow the student to attend...ONLY IF THERE IS ROOM. So far, there has been room in every class.
